Sl. No	Name of Research Scholar	Title of the Paper	Type		Citation
			National	International	
1	Dr. Sunil Kumar B. S	Improved entropy encoding for high efficient video coding standard		International	23
		High efficient video coding using weighted entropy with optimized quantization matrix			-
		Improved entropy encoding for high efficient video coding standard			4
		IF-RD optimisation for bandwidth compression in video HEVC and congestion control in wireless networks using dolphin echolocation optimisation with FEC			-
		A Survey of Optimization of Rate-Distortion Techniques for H. 264 Scalable Video Coding			1
2	AmithShekhar C	An Extensive survey over Traffic management/Load Balancing in cloud computing		International	-
3	Neelambike S	An Efficient Distributed Medium Access Control for V2I VANET		International	2

		An Efficient Environmental channel Modelling in 802.11p mac Protocol for V2I VANET			1
		An Efficient Distributed Medium Access Control for V2I VANET			-
		An Efficient environmental for V2I application services.	National		-
4	Keerthi Prasad G	Dvodasham (Dodeca) Edge Filter for Impulse Noise, Guassian Noise, Quantum Noise Reduction in Images		International	-
