TOPCODER

Coordinators:

Santosh Kumar M
Deepak D J

Student Coordinators:

Jaya Chandra S
Sharath M kolekar
Ramaprasad N S

Rules for Topcoder

There will be 3 phases in the event. The one who scores the highest total will be awarded as top coder. The rules for each phase will be as follows.

Phase1:Digital MCQ test

20*1=20

In this phase, totally 20 Multiple Choice Questions based on C concepts will be given. For each question, participants have to select the correct option. For every correct answer, points will be awarded.

Each question carries 1 point.

Phase 2: Practical test on debugging

3*5=15

Three questions will be given. Each question contains five errors (which will not be informed to the participants). Solving each error carries one mark.

Phase 3: Coding

5*5=25

Five problem statements and their corresponding outputs will be given. Participant has to program the solution and show the same output. Solving each problem carries five marks.

In case of tie, one more question will be given.
