Founder President

Vision of the Department

To build excellent Technocrats in Computer Science and Engineering by continuously striving for excellence in IT industry to meet the challenges of society.

Mission of the Department

1. To train students by adopting effective teaching-learning approach.
2. To establish collaborative learning approach with Industry and Professional bodies.
3. To develop engineers with Professional-Social ethics and creative Research Culture.

Programme Educational Objectives

1. Graduates able to apply the knowledge of Basics Science and Core Computer science to analyze and solve real world problems.
2. Graduates possess professional skills needed for IT employment and pursue higher education in Computer Science and Engineering.
3. Graduates engage in life-long learning and adapt to changing Environment.
4. Graduates who can succeed as an individual or team leader in multidisciplinary avenues.

HOD Desk

Dr. Sanjay Pande M B
HOD, Dept of CSE

Each and every one of you will one day have to ascribe a meaning to your life. As Swami Vivekananda said, "Truth can be stated in a thousand different ways, yet each one can be true." Your education here, in this department and outside it, during your time here and long after you graduate, will help you find that truth. The true hallmark of that education would be one "by which character is formed, strength of mind is increased, the intellect is expanded, and by which one can stand on one's own feet." So, seek out that education, discover that truth and remember to use it well.

Dr. P Prakash
Principal

I feel extremely happy to understand that computer Science & Engineering department of our Institution is bringing out its magazine **Falcon Timelines**. I understand that all the students have contributed for bringing out this magazine in an excellent format. The records like Academic achievements, sports achievements, extra curricular achievements of the students along with the career progress of the faculty or documented at regular intervals in the magazine, selected technical articles, research, authored by the students and faculty will impart a weightage to the Newsletter. I congratulate the editorial team and wish them Good luck in their future endeavours

Editorial Board

1. Dr. Sanjay Pande M B,
 2. Mr. Santosh Kumar M,
 3. Mr. Deepak D J,
 4. Mr. Sandeep G S,
- 1 Head, 2,3,4 Assistant Professors, Department of Computer Science & Engineering

Graphics by: Dr. Mouneshachari S, Associate Professor, Dept. of CS&E
Ms. Asha M Kathare, Instructor, Dept of CS&E

Program Specific Outcomes :

Graduates of Computer science & engineering are able to:

1. Use new technology in solving professional problems.
2. Competent in problem solving techniques.
3. Use the creativity and software design knowledge in the development of Information & Technology.

Programme outcomes

1. Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

2. Problem analysis: Identify, formulate, research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

3. Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

4. Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

5. Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

6. The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

7. Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

8. Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

9. Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

10. Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

11. Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

12. Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

About department

The department was started in the year 2001. The department is progressing dynamically in both academic and research areas. Currently the department offers a 4-year Under Graduate B.E degree in Computer Science and Engineering with an intake of 60 students, under the affiliation of Visveswaraya Technological University, Belgaum.

The objective is to educate, train and develop world class research and IT professionals with a mastery of not only hardware and software skills but also soft skills for professional success. The Department is well equipped with state-of-the-art laboratories in the areas of Computing, Systems Programming, File Systems, Computer Networking, Microprocessor and Electronic Circuits along with a department library.

The Department has CSE Forum called "Falcon" which provides a platform for students to showcase their talents in both technical and extracurricular activities. The Forum helps in all-round development of the students through various Technical and non-Technical activities conducted throughout the year. The faculties of the department are actively involved in research activities in various technical areas. The department is regularly conducting workshops for faculty and students.

Technical Articles (From Faculty & Students)

YouTube's new redesign project's codename is "Comic Panda". That's one more addition to the google surprise package with their new social network Google+ and additional changes to Google calendar and redesigns on Gmail. This news has been doing the rounds in the internet fraternity and online circles for quite some time now. In case you've missed it, here's the update in a nutshell.

YouTube has been quite a sore-eye in terms of user friendliness, with a clunky and rather cramped interface. This redesign project is going to change all of that, giving it a fresh and slick look with easy navigation options. Along with a new layout for videos and playlists, YouTube is also throwing in better editing tools.

YouTube has already started inviting users to test the experimental newly designed site and give their feedback. The new version of YouTube by paying a little visit to Cosmic panda and switch back to the classic version whenever you feel like.

The Pros and Cons of YouTube's Cosmic Panda

Pros:

- The look and feel is so much better than the classic version of YouTube.
- Playlists are always visible on the right panel and the organization is neat.
- The viewing experience is totally in your control. You can manually change the size of the video.
- Scrolling through videos of a selected channel is way easier now.
- The top right section gives you a quick view of your channel stats like upload views and subscribers

Cons:

- Instead of the "Featured Video" showing up when a person visits your channel it's the most recent upload that's visible.

Users of Google Chrome have the added advantage of moving between channels, videos and playlists. So you see, the +1's out do the -1's. In all, things look bright for this Panda, Cosmic or not!
